Your AIU Student End-of-Course Survey Results

Dear AIU Faculty Member:

Feedback from your students is key to understanding what is working well with your courses and instruction, along with opportunities to improve your students' educational experience. Sharing your students' feedback and making appropriate revisions to your instructional approach are important steps in AIU's system of Academic Governance.

We are pleased to announce that your Student End-of-Course (EOC) Survey results for the most recent term are attached to this e-mail. You should receive a separate PDF file for each course that you taught.

Within each PDF:

- You will find the numeric feedback for scale-based questions
- You will also find the text-based feedback that your students provided related to open-ended questions
- Note that for both the numeric and text-based feedback, not all of your students may choose to provide feedback (i.e., the number of responses may not equal the number of students in your course section)

If you have any questions about your students' feedback or need guidance interpreting the End of Course Survey results, please contact your Administrative Faculty or Program Chair.

Thank you for your continued efforts to support each student's educational success.

		Nothing to add. Thank you	1
		Very good instructor. His zoom sessions were wonderful his words were very understanding and slow so you could catch what he was saying. That kind of teaching is very important to me. He taught the lectures so you knew exactly what was being taught. Very nice man. I hope I have him for future classes. I learned a lot from his class. I am not sure how he squeezed in that much information in a week but he did and he did a great job at it. Thank You Terry Kelly Severns.	1

		You are a very good instructor. I hope to have you for other classes coming up. Thank you for your teaching style. I learned so much in your class. And I mean so much more I thought I ever could. I had a very hard time pulling up the quiz sorry about that. I am petrified of taken test and I got so worked up I couldn't even think. I had twenty pages of notes flipping through them I couldn't find anything, so I just answered them then I changed a couple of them and had them right the first time. I didn't do so well but I will take better notes next time. Thank You again. Kelly Severns	1
