Your AIU Student End-of-Course Survey Results

Dear AIU Faculty Member:

Feedback from your students is key to understanding what is working well with your courses and instruction, along with opportunities to improve your students' educational experience. Sharing your students' feedback and making appropriate revisions to your instructional approach are important steps in AIU's system of Academic Governance.

We are pleased to announce that your Student End-of-Course (EOC) Survey results for the most recent term are attached to this e-mail. You should receive a separate PDF file for each course that you taught.

Within each PDF:

- You will find the numeric feedback for scale-based questions
- You will also find the text-based feedback that your students provided related to open-ended questions
- Note that for both the numeric and text-based feedback, not all of your students may choose to provide feedback (i.e., the number of responses may not equal the number of students in your course section)

If you have any questions about your students' feedback or need guidance interpreting the End of Course Survey results, please contact your Administrative Faculty or Program Chair.

Thank you for your continued efforts to support each student's educational success.
